SUMMARY

“Motivated Front-End Developer skilled in HTML5, CSS3, JavaScript, and React. Experienced in building responsive and interactive web applications, including a ‘Task Manager App’ where I implemented dynamic task creation, editing, and deletion features with state management in React, and integrated local storage for data persistence. Familiar with Git version control, cross-browser compatibility, and UI/UX best practices. Quick learner, collaborative, and passionate about delivering high-quality user experiences.”

SKILLS

Frontend :

HTML | CSS | JavaScript | Responsive Web Design | DOM Manipulation

Backend:

Python | Django | Node.js | Express.js

Tools:

Visual Studio Code | Power BI | MS Excel | Android Studio

PROJECTS

Login & Signup WebPage

Created a modern login and signup interface using HTML, CSS, and JavaScript.

Added client-side validation for username and password fields.

Used CSS animations and hover effects to enhance user experience

Student Management System (Mini Project)

Built a basic student management system using HTML, CSS, Python, and SQL.

Implemented CRUD operations for managing student records.

Connected frontend forms with backend logic for data storage.

Task Management System

Build a python & django web app to create, edit, and track tasks.

Implemented user authentication and search/filter functionality.

Developed a responsive interface using SQLite database integration.

EDUCATION

Sangam University, Bhilwara
